

THE CLAY CITY TIMES.

50 Cents a Year in Advance.

We are here to help Clay City, the Surrounding Country and Ourselves.

J. E. Burgher, Publisher.

VOL. XV.

CLAY CITY, KY., THURSDAY, SEPTEMBER 8, 1910.

NO. 36.

Notice To Subscribers.

Owing to slack advertising in the columns of the Times and a shortage in our job rooms, coupled with an increase of every item that goes into the makeup of this paper, together with a similar increase in every article that is used by the editor's family in the home, the publisher finds a potent problem facing him. More revenue must be obtained in order to keep the paper and ourselves going, and after waiting and hustling to keep up the business to a paying basis we have failed. While the circulation of the Times is steadily increasing, as we said above, our advertising and job work has been on the wane for several months. There seems to be but one alternative, and that is to raise the subscription price from 50 cents per year to \$1.00 per year. So after October 1st the subscription price of the Times will be \$1.00 per year. We seriously regret that it is necessary for us to make this advance, but it is inevitable.

Up until Oct. 1st we will accept subscriptions at the old rate of 50 cents per year and will accept them up to three years in advance at this rate. We do this in order to raise the necessary cash to improve the paper, and at the same time to give our paying subscribers an opportunity to get the old rate as a reward for their continued support in the past. Before this date, we should receive no less than 300 new subscribers at the old rate of 50 cents. Of course all who have paid in advance for their paper at 50 cents will receive it for the time paid for at this rate, but after such time paid for in advance expires they will be

charged at the \$1.00 per year rate. If your time is up and you don't wish to pay in advance and get the paper at 50 cents for one, two or three years, and don't want to pay \$1.00 per year for it on one years credit, drop in and tell us or write us to this effect so we can stop the paper and leave friendly relations existing between us, as we don't want any misunderstandings.

We have been publishing the Times now for nearly fifteen years, and for the past nearly nine years have not missed a single issue of the paper, not even taking a day off for holiday or any other purpose and we think this is enough to merit sufficient confidence on the part of our subscribers to pay in advance and get the paper at 50 cents. So send in for renewal at once as after Oct. 1st the price will be \$1.00 if paid in advance or otherwise. This rule is imperative and will be strictly complied with to all our subscribers alike.

Work on Bridge Begun.

Work has begun on the Lulbegrud bridge between this and Clark county. Rock for the foundation is being hauled which will soon be ready for the steel that will arrive in a short time. The bridge is to be completed by October 15. The building of this bridge will fill a long felt want.

New Firm.

W. T. McGuire has resigned his position at the Company store and bought an interest in J. B. Eaton's store where he can be found ready to wait on customers in the future. G. G. Hackworth has been appointed to general manager at the Company store.

Intensive Farming.

Some railroad magnate has a model farm where everything that he raises costs twice what it is worth, and even the eggs cost one dollar per dozen, and he thinks that the farmers should follow his example of "intensive farming". The Agricultural Department experts advise the farmers how to improve their soil and stock, but if their advice were followed the farmers would need the Treasury of the United States to draw upon and then require an urgent deficiency appropriation, as the "experts" often do, to make both ends meet.

If the farmers' critics would try their hand at farming, with the present lack of labor and not very efficient at that, they would not carp so much. It is dollars to doughnuts they would admit failure, blame it on the land or the weather, and then resume their old occupation of scribbling about what they don't know about farming.

The Agricultural Department has just discovered that the farmers ought to raise more potatoes to the acre, and has sent experts to Europe to find out how to do it. What they will learn will be that the climate there is better than here for that sort of crop, and an Pennsylvania Dutchman could have told them so much without it costing them a dollar, when they will spend thousands.

If you have tried farming you will know that it is no picnic, and that through Republican policies all that you have to buy is at trust prices, and for all that you have to sell you must take what some combine will pay. Yes, it is not all fun being a farmer, nor do they all ride in automobiles, though the Republican metropolitan organs and the funny supplements would try and make us believe that the farmers are bigger fools than are other mortals.

Stocking up on Papers.

Week before last the Estill County Herald came into Republican hands, and this week the Campton Courier passes into Republican control. A strenuous effort has also been made to get hold of the Clay City Times. Langley and the Republican brethren of the Tenth Congressional district seem to be stocking up pretty heavily on Democratic papers for conversion into Republican sheets. We do not blame them, for truly are newspapers a valuable asset in a campaign, still we can't see how papers can benefit Langley and print the truth.

Shooting in Clark.

In the edge of Clark county near the Powell line Tuesday, John Baker shot and seriously wounded Obe Howard. It is thought that Howard cannot live. He was shot twice with a pistol, one ball entering into his cheek just below the eye, and the other one into his leg.

Howard is a son of James Howard who lives near this city, and Baker formerly lived in this city. The two men had had previous trouble.

Death of Mrs. Cason.

Manda Cason, wife of Gip Cason died at Waltersville, Sept. 1st, 1910 of consumption. Was buried at Powell's Valley on Friday. Her funeral was preached by Elder A. Easter at Powell's Valley church in the presence of a very large and sympathizing congregation. Deceased had joined the Missionary Baptist church and lived and died a christian.

Married in Cincinnati.

The marriage of Mr. Wm. Mountz, Jr. of this place has just been made public. He was married in Cincinnati June 28 to Miss Eildy Nobelius. The bride is a Swede and formerly lived in this city with an uncle who has since returned to the old country. The groom is a splendid moral young man and his many friends here extend hearty congratulations.

Trust into Trouble.

In a report to the Missouri Supreme Court in the ouster suit against the International Harvester Company of New Jersey, Special Commissioner Theodore Brace declared the corporation to be a trust and a combine formed for the purpose of destroying competition in the manufacture and sale of harvesting machinery.

Save 50 cents by subscribing for the Times during September. After Oct. 1st the rates will be \$1.00 per year. Pay up now.

Arm Broken.

Mrs. Katie Rose, of St. Louis, Mo. who is visiting her aunt, Mrs. Mandy Walters, for the first time in thirty-two years, fell this morning and broke her arm just above the wrist. She had just recovered from a break in the same arm above the elbow in two different places. Dr. Martin set the broken bones and she is resting as well as could be expected under such conditions.

Crop Report.

Commissioner of Agriculture M. C. Raukin has issued the crop report for the month of August, which gives the condition of crops in Kentucky. Mr. Rankin places the condition of Burley tobacco at 54 per cent. in the State as a whole. His report follows:

"The rainfall during the month of August was not so great as that of the preceding month, but the rains came when they were badly needed. In some places there are a number of reports that they are needing rain badly."

"Tobacco has shown considerable improvement, and corn has shown very marked improvement."

The man and woman who try to make their home the most interesting spot on earth for each other, and for their friends and those who are near and dear to them, have but occasional use for the club. It is to them, like the theatre, a pleasant place to enter now and then but not a spot to dwell in.

The Times \$1.00 per year after October 1st.

Hints for the Grumbler.

The man who habitually grumbles is a self-confessed failure: he admits that things are wrong with him.

If things are always wrong with you, it is your own fault, so don't spend valuable time and energy proclaiming the fact. Put them right.

Generally a staff is not all bad, however ill-assorted they may be, unless they have been handled wrong. It takes a particularly bad type of grumbler to chase all the goodness out of them.

Don't grumble with conditions—put them right—make the best of them or go where they are better.

Don't grumble with your job: if you cannot do better where you are do better somewhere else.

Don't grumble with your customers; they won't stand it.

If you have to grumble occasionally, do it out loud before the offender's face; he may give you his candid opinion of yourself, and this should be of value to you.

The Boone's Creek Baptist Association will meet with the Alleville church, Clark county, Sept. 13, 14 and 15. Powell's Valley church, near this city, is a member of this association, and its pastor, Eld. J. T. Turpin is alternate for the preaching of the introductory sermon.

Mrs. A. T. Whitt is visiting Mrs. J. Crews Rash in Cincinnati. Mr. Whitt was with Mrs. Whitt, but was called home Wednesday.

Winchester is putting on still further city airs. Fifteen divorce cases will come up at the next term of Circuit Court.

J. D. Marshall, of Lexington, was here yesterday and shipped out a car of hogs and sheep that he had bought up.

After October 1st Times \$1.00 per year. Renew before that date and save money.

Mr. and Mrs. S. G. Baker are visiting relatives near Winchester.

John W. Henry, the photographer, for the next thirty days will make your photo for you. If you want pictures go see him and let him do your work while you can get it.

Money Found.

Pocketbook containing money and check found Tuesday in the road on top of Old Furnace mountain. Owner can get same by satisfactory evidence of ownership and paying for this notice.

Changes his Negroes.

William T. Vernon, the negro Register of the Treasury, is to have his political head chopped off by President Taft, the Lord High Executioner of the Republican party. There is no charge that Vernon has not attended to his duties, but he is from Kansas, and as his influence proved worthless in that state to stem the Insurgent tide he is to be politically decapitated, and J. C. Napier, a negro of Nashville, Tenn., is to be installed in his place. The appointment of Napier is expected to bring the Tennessee negroes back to their original Republican allegiance. From this may be adduced that the Republican use of the negro is what can be got out of him politically. The faithful service of Vernon will not save his political head; nor will like service of those other negroes who have been appointed to Federal offices, unless they can show results at the primaries and at elections that suit the Republican leaders who use them for their own aggrandizement.

On All Sides.

Hon. John W. Langley, "Promissory John" was here Thursday. He professes to feel sure of re-election, but seemed reluctant to take a decided stand on any subject. He did not state whether or not he would vote for Cannon again for Speaker. He said he had some times been called an Insurgent and at other times a stand patter, which is probably true as he can easily be on all sides of any question. While here he was in conference with some of the new Republican leaders, but the old standard bearers, who have led the fight in times past were not invited and of course were not present. —Winchester Democrat.

On one morning and in one paper it was announced that Senator Warner, of Missouri, declined to be a candidate for re-election, and that Joe Sibley, who was nominated for Congress from Pennsylvania at an expense of \$42,500, has withdrawn. Both assign ill health as the cause, but some folks are saying that it is the ill will of the voters that has seared them. It is hardly necessary to say that both are Republicans.

After revising the tariff upward for years to suit the protected interests, it is rather strange to now hear Senator Lodge call it the "old unscientific method." Is Lodge afraid that the people of Massachusetts are for tariff reform and are thinking of making a goat of him?

What do the voters care for the animosities of Taft and Teddy and their followers? The main thing is the question of the policies that will be pursued and whether the cost of living will be reduced to match the ordinary income.

We expect to hear of more Republican candidates for Congress than Joe Sibley having heart disease by the time election day arrives and many having heart aches after election. Turn the rascals down.

After the Courier-Journal.

The Courier-Journal is one of the most unpopular paper in the State and yet one of the most influential. The Mayfield Messenger goes after the Journal in the following style in different articles:

It used to be said that the Courier-Journal was the great organ of the organized Democracy of the State, and that in other days it was dubbed a "Power for good," but those halcyon days have passed, for that once great political newspaper has, for the past several years, floundered about from one "interest" to another until its political power, from a Democratic standpoint, amounts to but little among the rank and file of true Democrats.

A close examination of its political conduct for the past twenty years, lead us to the reasonable conclusion, that if it had suspended publication in 1894 and had remained out of business until 1909, there would never have been a Republican in the Governor's chair or in the United States Senate in the once Democratic state of Kentucky.

The political "wishy-washy" policy of that paper elected Bradley Governor, Deboe to the national Senate, Willson Governor and Bradley United States Senator. This is not all, there are many other political sins piled up at its door, which will take it generations to receive full and complete pardon at the hands of an outraged Democracy.

To be a Courier-Journal Democrat a man must bolt the party when he pleases; he must carry a bottle of "red eye" in his pockets, vote against local option, "cuss" and abuse the preachers, denounce sober Democrats as temperance fanatics, favor open saloons in every city, village and hamlet and humbly bow to the whims and dictations of the whiskey power on any and all occasions.

If an editor out of the country don't see proper to come up to all these requirements, then the Courier-Journal wishes to place it in the prohibition party if possible read him out of the Democratic party. This the Courier-Journal can't do until it repents of its political sins and is baptized in some other liquid save and except the juice of the forbidden fruit.

Fun, sarcasm and silly wit can't put the daily Messenger out of the Democratic party. It is here to stay and assist in trying to keep the Democrats in line who have once been led astray by the wayward course of the once-powerful Courier-Journal.

We belong to that class of Democrats who believe in trying to get the best men in the party to hold the offices, and then, when the party, in its organized way, places them on the list of nominees, support them, whether they are our choice or not.

If a paper cannot support its party nominees, then its time for it to get out of the party and not attempt to dictate to Democrats what they should do on certain side issues.

Let the Courier-Journal get in line and fight for the party and let the little side issues alone.

Mr. Watterson could never have known how unpopular his position is on the prohibitory laws of the State if he had not written so much about it in the columns of the Courier-Journal. Very few, if any of the State papers are with him in his position on whiskey in politics.

It can be definitely stated today that Colonel Roosevelt will be a candidate for President in 1912, but will faintly support Mr. Taft for the nomination.

Senator Gore's championship of the Indians may look like the blind leading the blind; but it seems to be effective nevertheless.

Some of the railroad magnates appear to have been robbing the Illinois Central; no wonder they want rates increased.

Every time that Democratic donkey "hee haws" these days it makes the G. O. P. very, very tired.

Business may not be as brisk as politics just now, but it is surer of itself.

The farm vote is more apt to vote as it reaps than as it sows.

A gross insult was passed upon the editor of the Times early Monday morning when he was addressed as the Hon. John W. Langley.

Elder Z. Ball, pastor of the Christian church, this city, is assisting the pastor Elder Adams in a protracted meeting at Ruckerville church, Clark county.

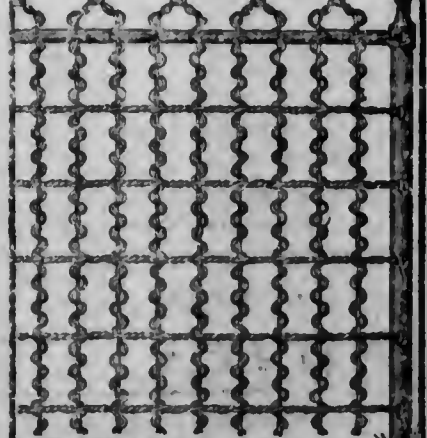

It Saved His Leg.
"All though I'd lose my leg," writes J. A. Swensen, of Watertown, Wis. "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it, sound and well. Infalible for Skin Eruptions, Eczema, Salt Rheum, Boils, Fever Sores, Burns, Scalds, Cuts and Piles. 25c at Swann-Day Lumber Co.'s store.

Where Will the Trouble End.
An exchange gives an incident that illustrates the impossibility of telling where the trouble resulting from a mortgage will end. A man mortgaged his farm to buy his wife a pair of earrings. The wife took in washing to pay the interest on the mortgage, and the first day lost one of the diamonds in the suds, and tried to hang herself in the barn, but the rope broke and she fell on a \$150 Jersey cow breaking its back.

Don't Break Down.
Severe strains on the vital organs, like strains on machinery, cause break-downs. You can't over-tax stomach, liver, kidneys, bowels or nerves without serious danger to yourself. If you are weak or run-down, or under strain of any kind, take Electric Bitters the matchless, tonic medicine. Mrs. J. E. Van de Sande, of Kirkland, Ill., writes: That I did not break down, while enduring a most severe strain, for three months, is due wholly to Electric Bitters." Use them and enjoy hearty and strength. Postmasters' Meeting.
It has been decided by the Postmasters' Association, which includes Presidential offices, and the State League of Postmasters of Third and Fourth class offices, to hold a joint meeting this year in Louisville, Sept. 14th and 15th. The League will meet at 2 o'clock p. m., on the 13th, for the purpose of transacting such business as pertains to League affairs only.

On the 14th and 15th the Association and League will hold a joint meeting for the purpose of discussing postal affairs.

There will be several representatives of the post-office Department present to give instructions. The new Money Order and Registry Systems will be fully explained. Every Postmaster should attend as they will learn more than they would in years at home, and many things they never would learn otherwise.

The Last of a Fiend
would have been about as welcome to A. Cooper of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never could at night now." Millions know its matchless merit for stubborn cobs, obstinate coughs, sore lungs, lagrippe, asthma, hemorrhage, croup, whooping cough, or hayfever. It relieves quickly and never fails to satisfy. Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM...it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Nervous Prostration

"I had a general breakdown. A gentleman advised Dr. Miles' Nervine, and I noted an improvement after a few doses, and two bottles gave me entire relief."

W. M. R. BURKHARDT, 369 Rawling St., Washington C. H., O. When the nervous system is weakened, one after another of the organs which they control become inactive, and a general breakdown eventually follows. It may be either the stomach, heart, lungs or kidneys that is first affected.

Dr. Miles' Nervine makes weak nerves strong, by its soothing and strengthening influence upon the nervous system. The first bottle will benefit; if not, the druggist will return your money.

STANTON COLLEGE ANNOUNCEMENTS

FOR FALL TERM OF 1910.

TERM OPENS SEPTEMBER 5TH IN ALL DEPARTMENTS. HOLIDAY VACATION BEGINS DECEMBER 24TH.

NEW DEPARTMENT.

A new Department will be added to our work this year. Heretofore we have not carried the Department of Physics because there was no demand for it. This Department will be opened to our students at the beginning of the Fall Term. Funds have been collected for a Physical Laboratory and our instruments will be installed as they are needed. A competent instructor will have charge of this new work.

NEW TUITION REGULATION.

Students of this college who have successfully passed the requirements of the eighth grade (Common School Department) are entitled to free tuition in the Academy, provided that they reside in Powell county and that a registration fee of \$5.00 is paid at the time of entrance. But hereafter, such students as desire to receive help from the county must pass the examination given in January and May by the County Superintendent for those who desire to be county beneficiaries in the Academy. All students from other schools in the county may become Beneficiaries in the Academy by passing either of these examinations.

Students residing in other counties and those in this county who do not care to enter as beneficiaries under our regulations with the County Board of Education will be charged a uniform rate of \$2.00 a month in the Academy. Students carrying college studies will pay \$2.50 a month according to prospectus.

OTHER REGULATIONS.

All other regulations may be found in Stanton College Prospectus for 1909-1910. For information address,

Vital Washington News.

Spending nearly \$200,000 a day more than it took in, the government closed the month of August with a deficit approximating \$5,000,000, which is indicative of a deficit of \$60,000,000 for this fiscal year, as against a deficit of \$19,480,752.43 for the last fiscal year.

This deficit was due to two principal causes:

First: The unparalleled extravagance of the standpat faction of the Republican party, which is in control of the government.

Second: Failure of the Payne-Aldrich tariff law to produce sufficient revenue to meet the expenses of the government.

Excess of expenditures over receipts is no new in the history of the party now in power. For three or four years now the government has been closing its books each night facing a big deficit in the day's business. But the average American does not know this. While there would be no justification for stating in this dispatch that the big press associations misstate the facts, there is ample justification for saying that the facts are so stated that the average man does not understand them.

For instance, the statement of the treasury issued at the close of business Aug. 27 shows that the excess of expenditures over receipts for July and the first 27 days of August, 1910, amounted to \$14,431,727.34, or an average deficit of \$288,634.54 for each banking day in that period. No one could possibly so understand the situation, however, from the reports carried by the big press associations, which invariably give the administration side of the government finances.

If a business firm should spend more money than it took in, day after day, week after week, month after month and year after year, it is but natural to assume that the stockholders would demand a new management. Yet the men in charge of the government have for years been able to overspend the receipts without having been cal-

led to account by the public. This can be explained, however, by the fact that the average man is not by any means aware of the actual situation.

How are these daily deficits made up? The amount of the deficit is taken from the general fund. How does money get into the general fund? It comes from the people. Figures best tell the story of what these daily deficits are doing to the general fund:

(Balance in General Fund at close of year.)

1907,	\$272,061,445.47
1908,	245,171,347.73
1909,	126,375,428.10
1910,	106,894,675.67
Aug. 29, 1910,	85,606,035.42

Mr. Roosevelt has stated over and over again that it is his ambition, so far as it within his power lies, to assist the people to purify politics.

There is but one way the people can exert influence to purify politics—by voting right. If Mr. Roosevelt wishes to give information to the people that will really enable them to do this, why does he not tell them frankly whether in his opinion Aldrich and Cannon—and the men who vote and co-operate with them, are friends or enemies of the Republic? Surely he knows whether they are or not, after having co-operated with them as long as he has!

Every Democratic worker in the country should have a copy of the 1910 Democratic campaign book, which is without doubt the best handbook on the tariff now in print. One of the unusual features of the book, as contrasted with past campaign books, is its utilization of Republican utterances to sustain Democratic arguments. Thirty-six of the 516 pages of the book are made up exclusively of speeches by Republicans, who take practically the same position on many of the big issues as the Democratic leaders. The committee is asking \$1 for the book, which goes toward defraying expenses of the Democratic Congressional committee. Not having been favored with contributions by the great industrial concerns of the country, the Democratic committee must rely largely upon contributions from the people. Those who are really unable to contribute the dollar to the campaign fund, however, may secure a copy of the campaign book free. Contributions and requests for the book should be addressed to the Hon. F. F. Garrett, treasurer of the National Democratic Congressional Committee, Washington, D. C.

In his letter to the Republican Congressional Committee President Taft serves notice on the country that if the next House is Republican the ship subsidy bill will be passed.

The Republicans had intended putting the \$5,000,000 ship subsidy grab through at the last session, but were sidetracked by a scandal which brought about a Congressional probe of the business methods of the Merchant Marine League of Cleveland, O., which concern had been attacking and intimidating members of Congress opposed to the subsidy grab. It developed at the hearing that the attacks on the opponents of shipping subsidies had been carried on with money subscribed by subsidiary concerns of the steel trust, and other individuals and companies which would profit by the passage of legislation appropriating money from the treasury to private ship owners.

NEW IDEA MANURE SPREADER

FARMERS, ATTENTION!

This Manure Spreader is different from all others. Do not buy without first investigating the merits of the same. The exclusive features not found on other machines:

Drawn with coupling pole; without a clutch or cog wheel. Can be heaped in loading, the same as a farm wagon. Guaranteed to pulverize all manure (notice the three chances).

This machine is built on a common sense principle of a farm wagon—hence is the simplest, most durable, tightest draft, lowest

down (hence easy to load into) spreader on the market. Backed by ten years' experience, not an experiment. Ask for catalogue X.
